- Develop whenua based supply chain initiatives
- Gather project related data within Kaupapa Indigital
- Seek strategic funding
- Implement consent strategy to protect and utilise whenua for the advantage of te taiao and ngaa taangata

Mana Motuhake

# ENABLING MANA MOTUHAKE

## 2025-2029 : WHAANAU

### TE PAE ANAMATA - FUTURE READY

#### WHAT IS "ENABLING MANA MOTUHAKE"?

It is viewed that the phrase 'Mana Motuhake' for Waikato-Tainui traverses all parts of the tribal spectrum, and across all roles/groupings within.

Kaupapa Korowai has defined roles/groupings within Waikato-Tainui as:

- Tangata, or the Individual (tribal member)
- Whaanau, both as a household and whaanui
- Marae
- Hapuu
- Iwi and organisation, and
- Taiao

#### RATIONALE ON KAUPAPA KOROWAI

The previous outputs have helped inform recommendations around prioritising a strategic focus area. To enable future thought about priorities across the next 5 x 5-Year Plans, identifying a strategic focus for each 5 year period to guide organisational strategy is appropriate. Identifying trends as detailed priorities any further out then 5-10 years is unhelpful.

The individual projects identified in previous page align in some way within the prioritised 'Kaupapa Korowai' whilst keeping the focus of "Whaanau" at the centre. Kaupapa Korowai are our Strategic Approach and result in Strategic Actions:

- **Tiaki Taiao, Tiaki Taangata** - Develop a world leading approach to food sovereignty that seeks to restore te taiao whilst nourishing nga taangata
- **He Whakatipu He Whakapuaawai** - Support our whaanau through strengthening marae assets and infrastructure and increasing whenua Maaori utilisation
- **Indigital** - Build future ready, iwi owned digital infrastructure to capture all data and lead iwi and whaanau development.

#### PATHWAY

ENABLING MANA MOTUHAKE BY  
2050

#### 2045-2049 : HAPUU

OUR HAPUU ARE THRIVING AND AUTONOMOUS GROUPINGS DEEPLY CONNECTED TO WAIKATO-TAINUI, ENABLED, SUPPORTED AND EXPRESSING MANA MOTUHAKE

#### 2040-2044 : MARAE

OUR MARAE ARE SUPPORTED TO NAVIGATE THEIR OWN PATH TOWARDS MANA MOTUHAKE

#### 2035-2039 : IWI/ORGANISATION

THE ORGANISATION IS STRENGTHENED AND SUPPORTED THROUGH OPTIMISED STRUCTURE AND RESPONSE TO CONTINUED REVIEW

#### 2030-2034 : TAI AO

TE TAI AO IS REJUVENATING AND FLOURISHING TOWARDS THE MAIMAI AROHA STATE OF KIINGI TAAWHIAO

#### 2025-2029 : WHAANAU

OUR WHANAU ARE SUPPORTED TO RESPOND AND ADAPT TO THE CHALLENGES AHEAD, WHILST BUILDING RESILIENCE AND TAKING ACTION FOR THEIR FUTURE

# PAATAI BEFORE MOVING INTO PRIORITISATION

Key Questions at this point of the process:

1. Is the assumption that Ngaa Tohu are remaining as the guiding framework correct?
2. How are we defining Mana Motuhake? Are we happy with the proposed approach of prioritising a focus area towards achieving this - ie Mana Motuhake for whaanau for this five year plan?
3. Confirm strategic direction? Are we adopting the recommendations for Kaupapa Korowai as our strategic direction? If not, then is there another strategy for implementing or achieving the outcomes framework - what is this?

Of note is the absence of focus on business development, due to TGH usually working across this area. The opportunity is however, that some of these works programmes enable self funded workstreams through relationship accords, external funders and as the government supports iwi/hapuu moving into a space of greater service delivery for their own people eg: Mokopuna Ora.

Taking strategic steps towards strengthening tribal assets, digital infrastructure and taiao strategy, places the iwi positioned and ready to work to deliver iwi lead and developed kaupapa. Further, using a 2050 horizon, we will see the tribe developing highly proficient service and business delivery across these areas that will enable movement from a space of need, to a space of opportunity through provision of those services to others outside of the iwi.

Leaning into the identified trends of the future enables the iwi to be prepared for and optimise these opportunities where ever possible.

# APPENDIX - DECISION MAKING CRITERIA

**THE ABOVE PROJECTS HAVE BEEN REVIEWED AND CONSIDERED AGAINST THE THREE STEP DECISION MAKING CRITERIA (ATTACHED BELOW):**

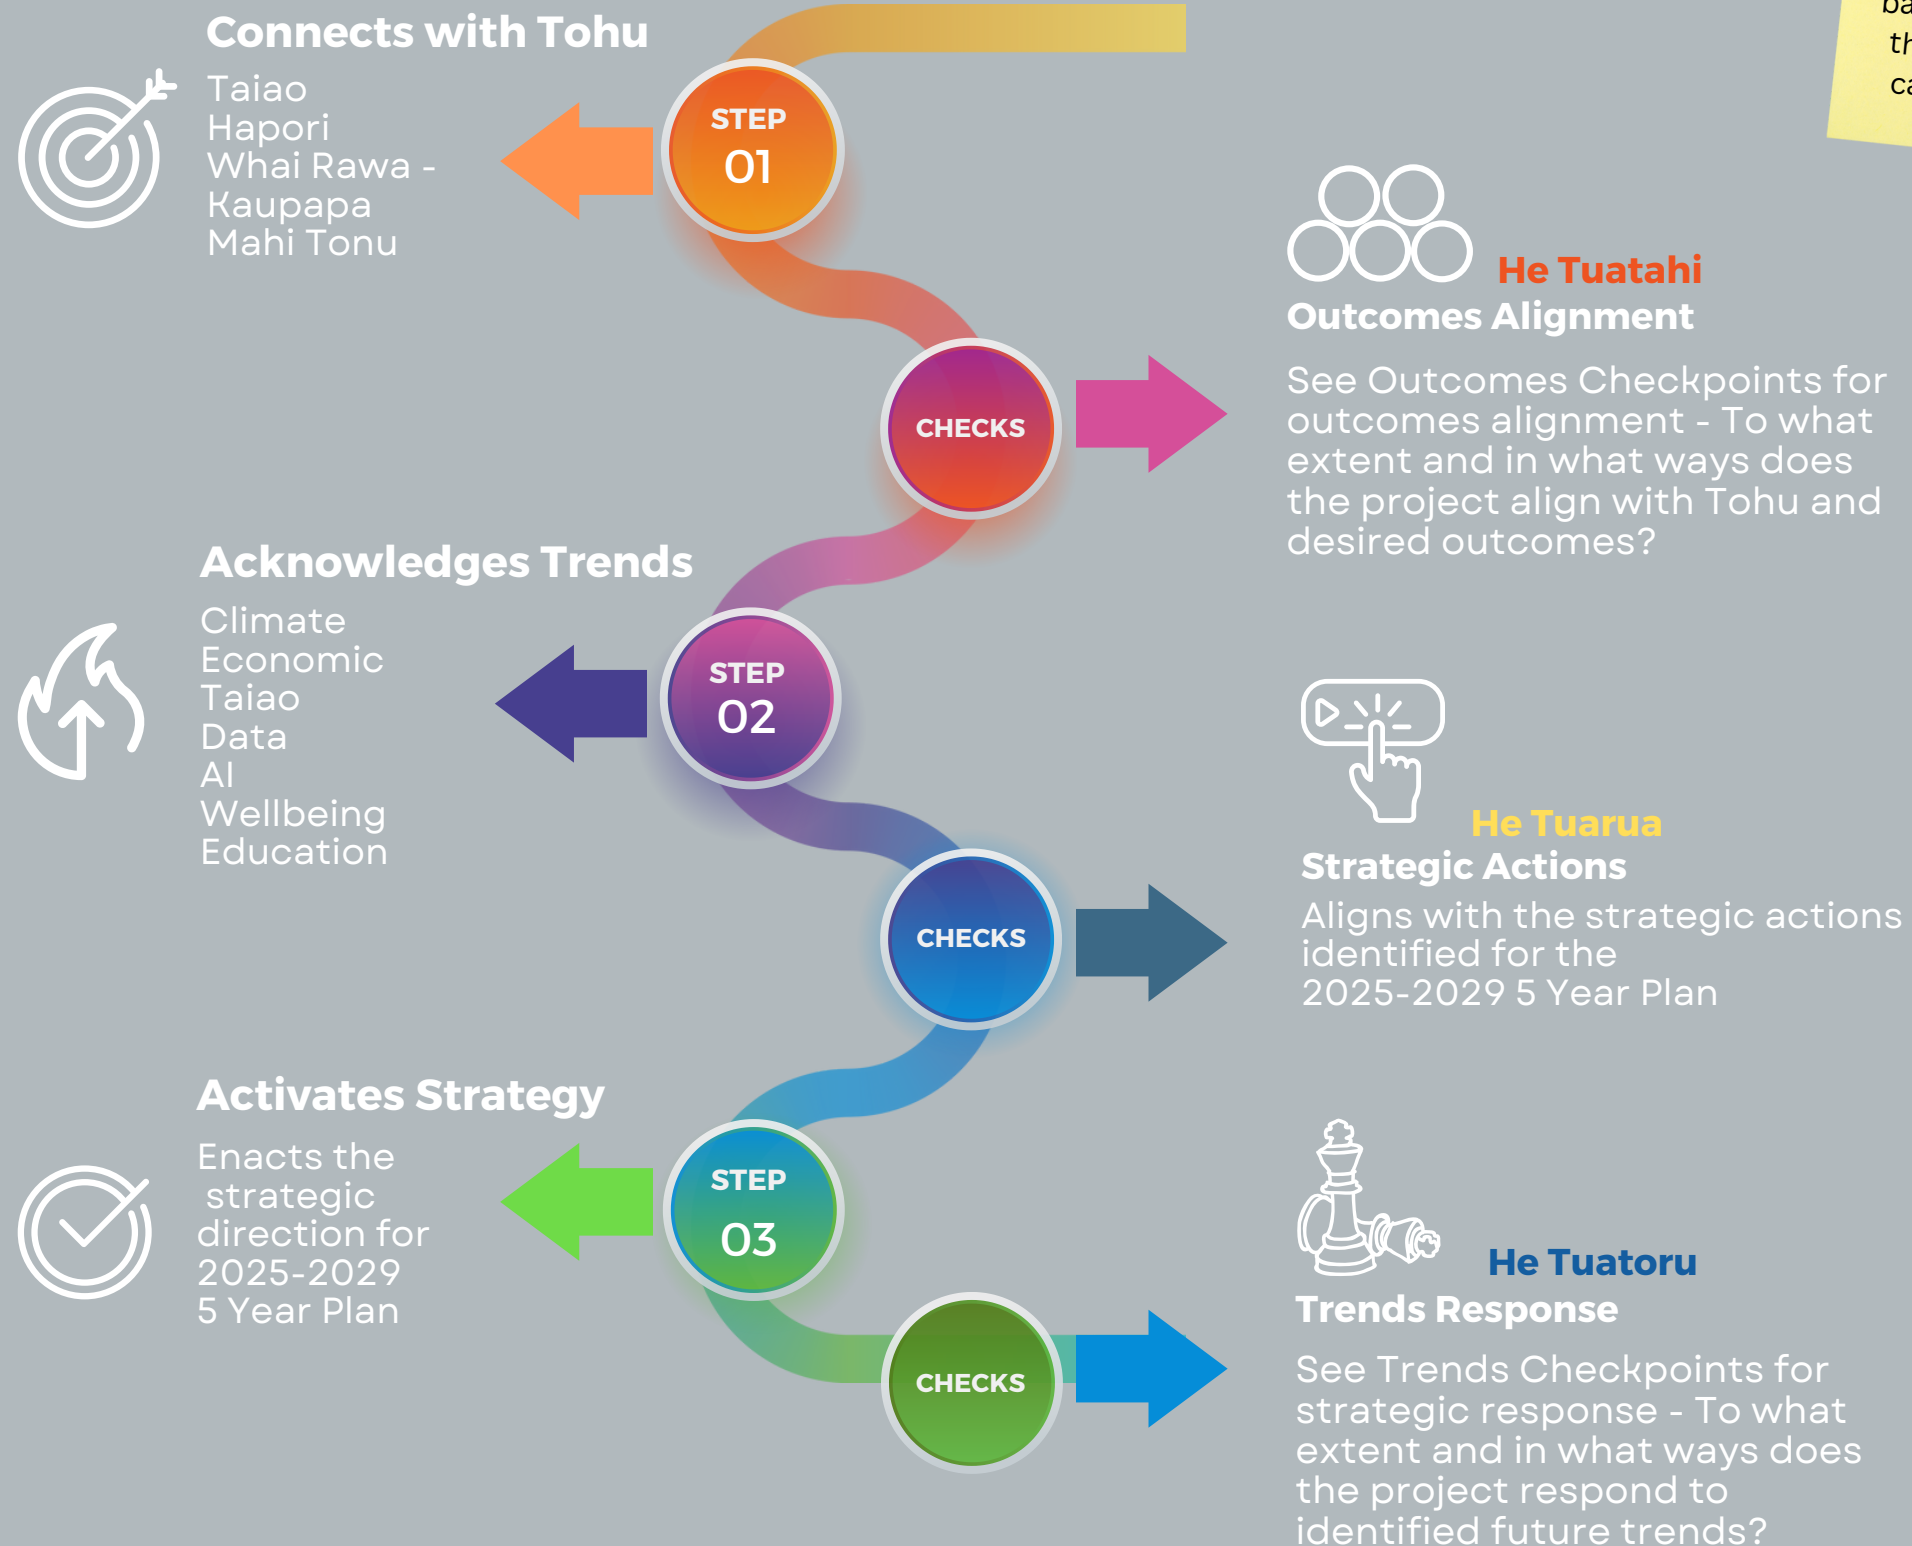

- **Tuatahi - Review against Outcomes Alignment** - He Anga Whakamua - To what extent and in what ways does the project align with Ngaa Tohu and desired outcomes?
- **Tuarua - Alignment with Identified Strategic Actions** - This comes into play for additional and future projects being considered post planning - does it align with the proposed Future Ready Strategic approach?
- **Tuatoru - Trends Response** -To what extent and in what ways does the project respond to the identified future trends?

## CRITERIA

# Decision Making CRITERIA MATRIX

Note: If Strategic direction moves away from Tohu based outcomes, this checkpoint can adapt with that.

# Checkpoints for **OUTCOMES ALIGNMENT**

Note: If Strategic direction moves away from Tohu based outcomes, this checkpoint will need to adapt with that.

### **Paatai**

How does this project make impact towards enhancement?

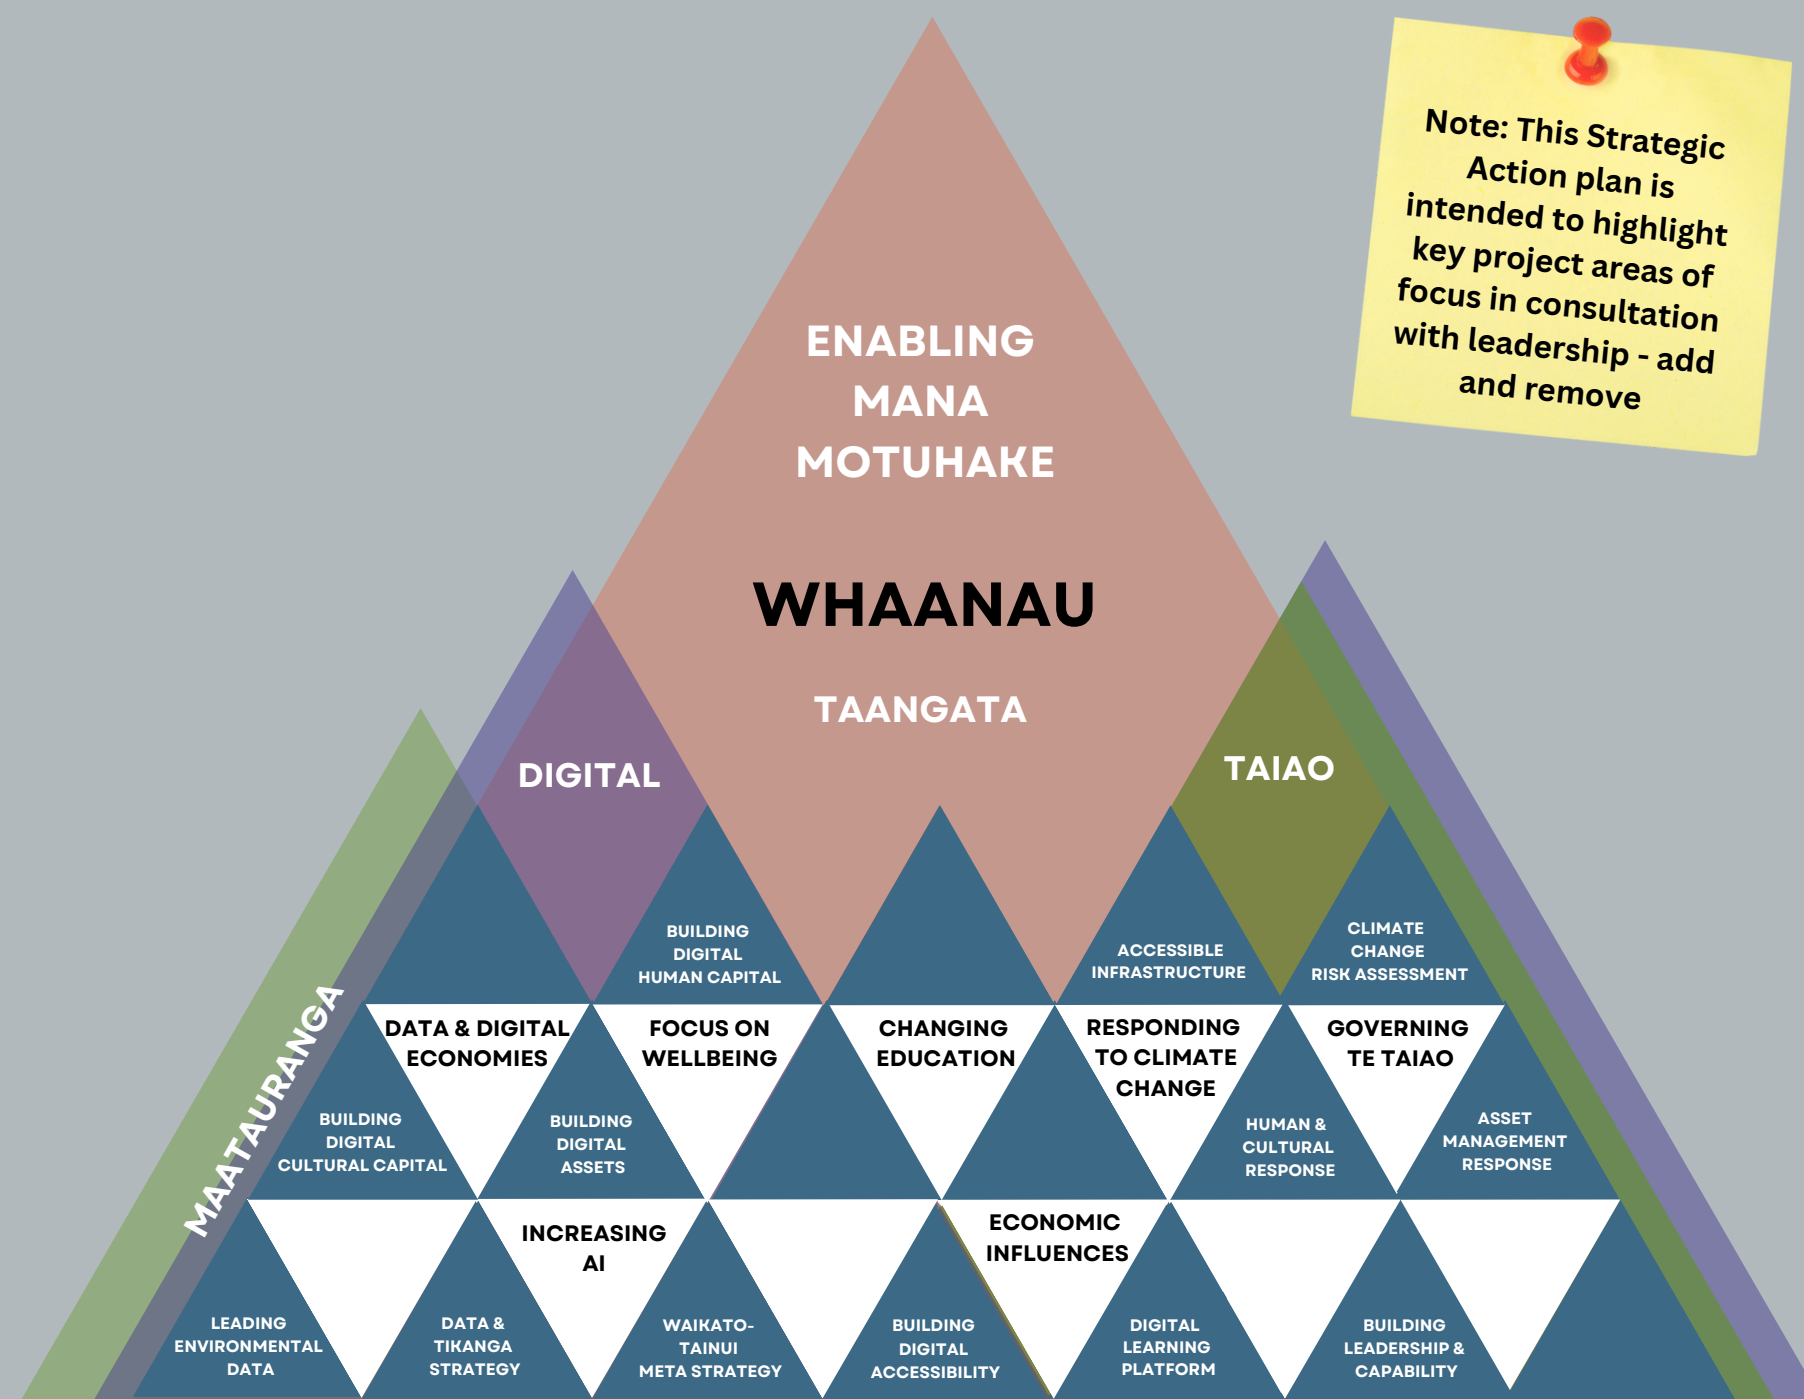

If not, how could you adapt the project to achieve greater outcomes?

How are you also working towards the other tohu within this project? Win/Wins

How does this project work alongside or within existing work programmes?

\* Note merging of Tohu - Kaupapa and Whai Rawa - for strategic impact.

# Checkpoints for STRATEGIC ACTION

## NIHO TANIWHA FRAMEWORK

As a framework, the niho taniwha has been used here to help contextualise the identified trends, and place in an action orientated framework that reflects Waikato-Tainui.

Within the design, the trends are downward facing, with the strategic responses, facing upwards. The Five-Year Plan 2025-2029 is intended to provide a strategic approach for Waikato-Tainui to push through these headwinds to achieve its objectives, whilst responding to and taking opportunities posed by the identified trends.

## PRIORITISING WHAANAU

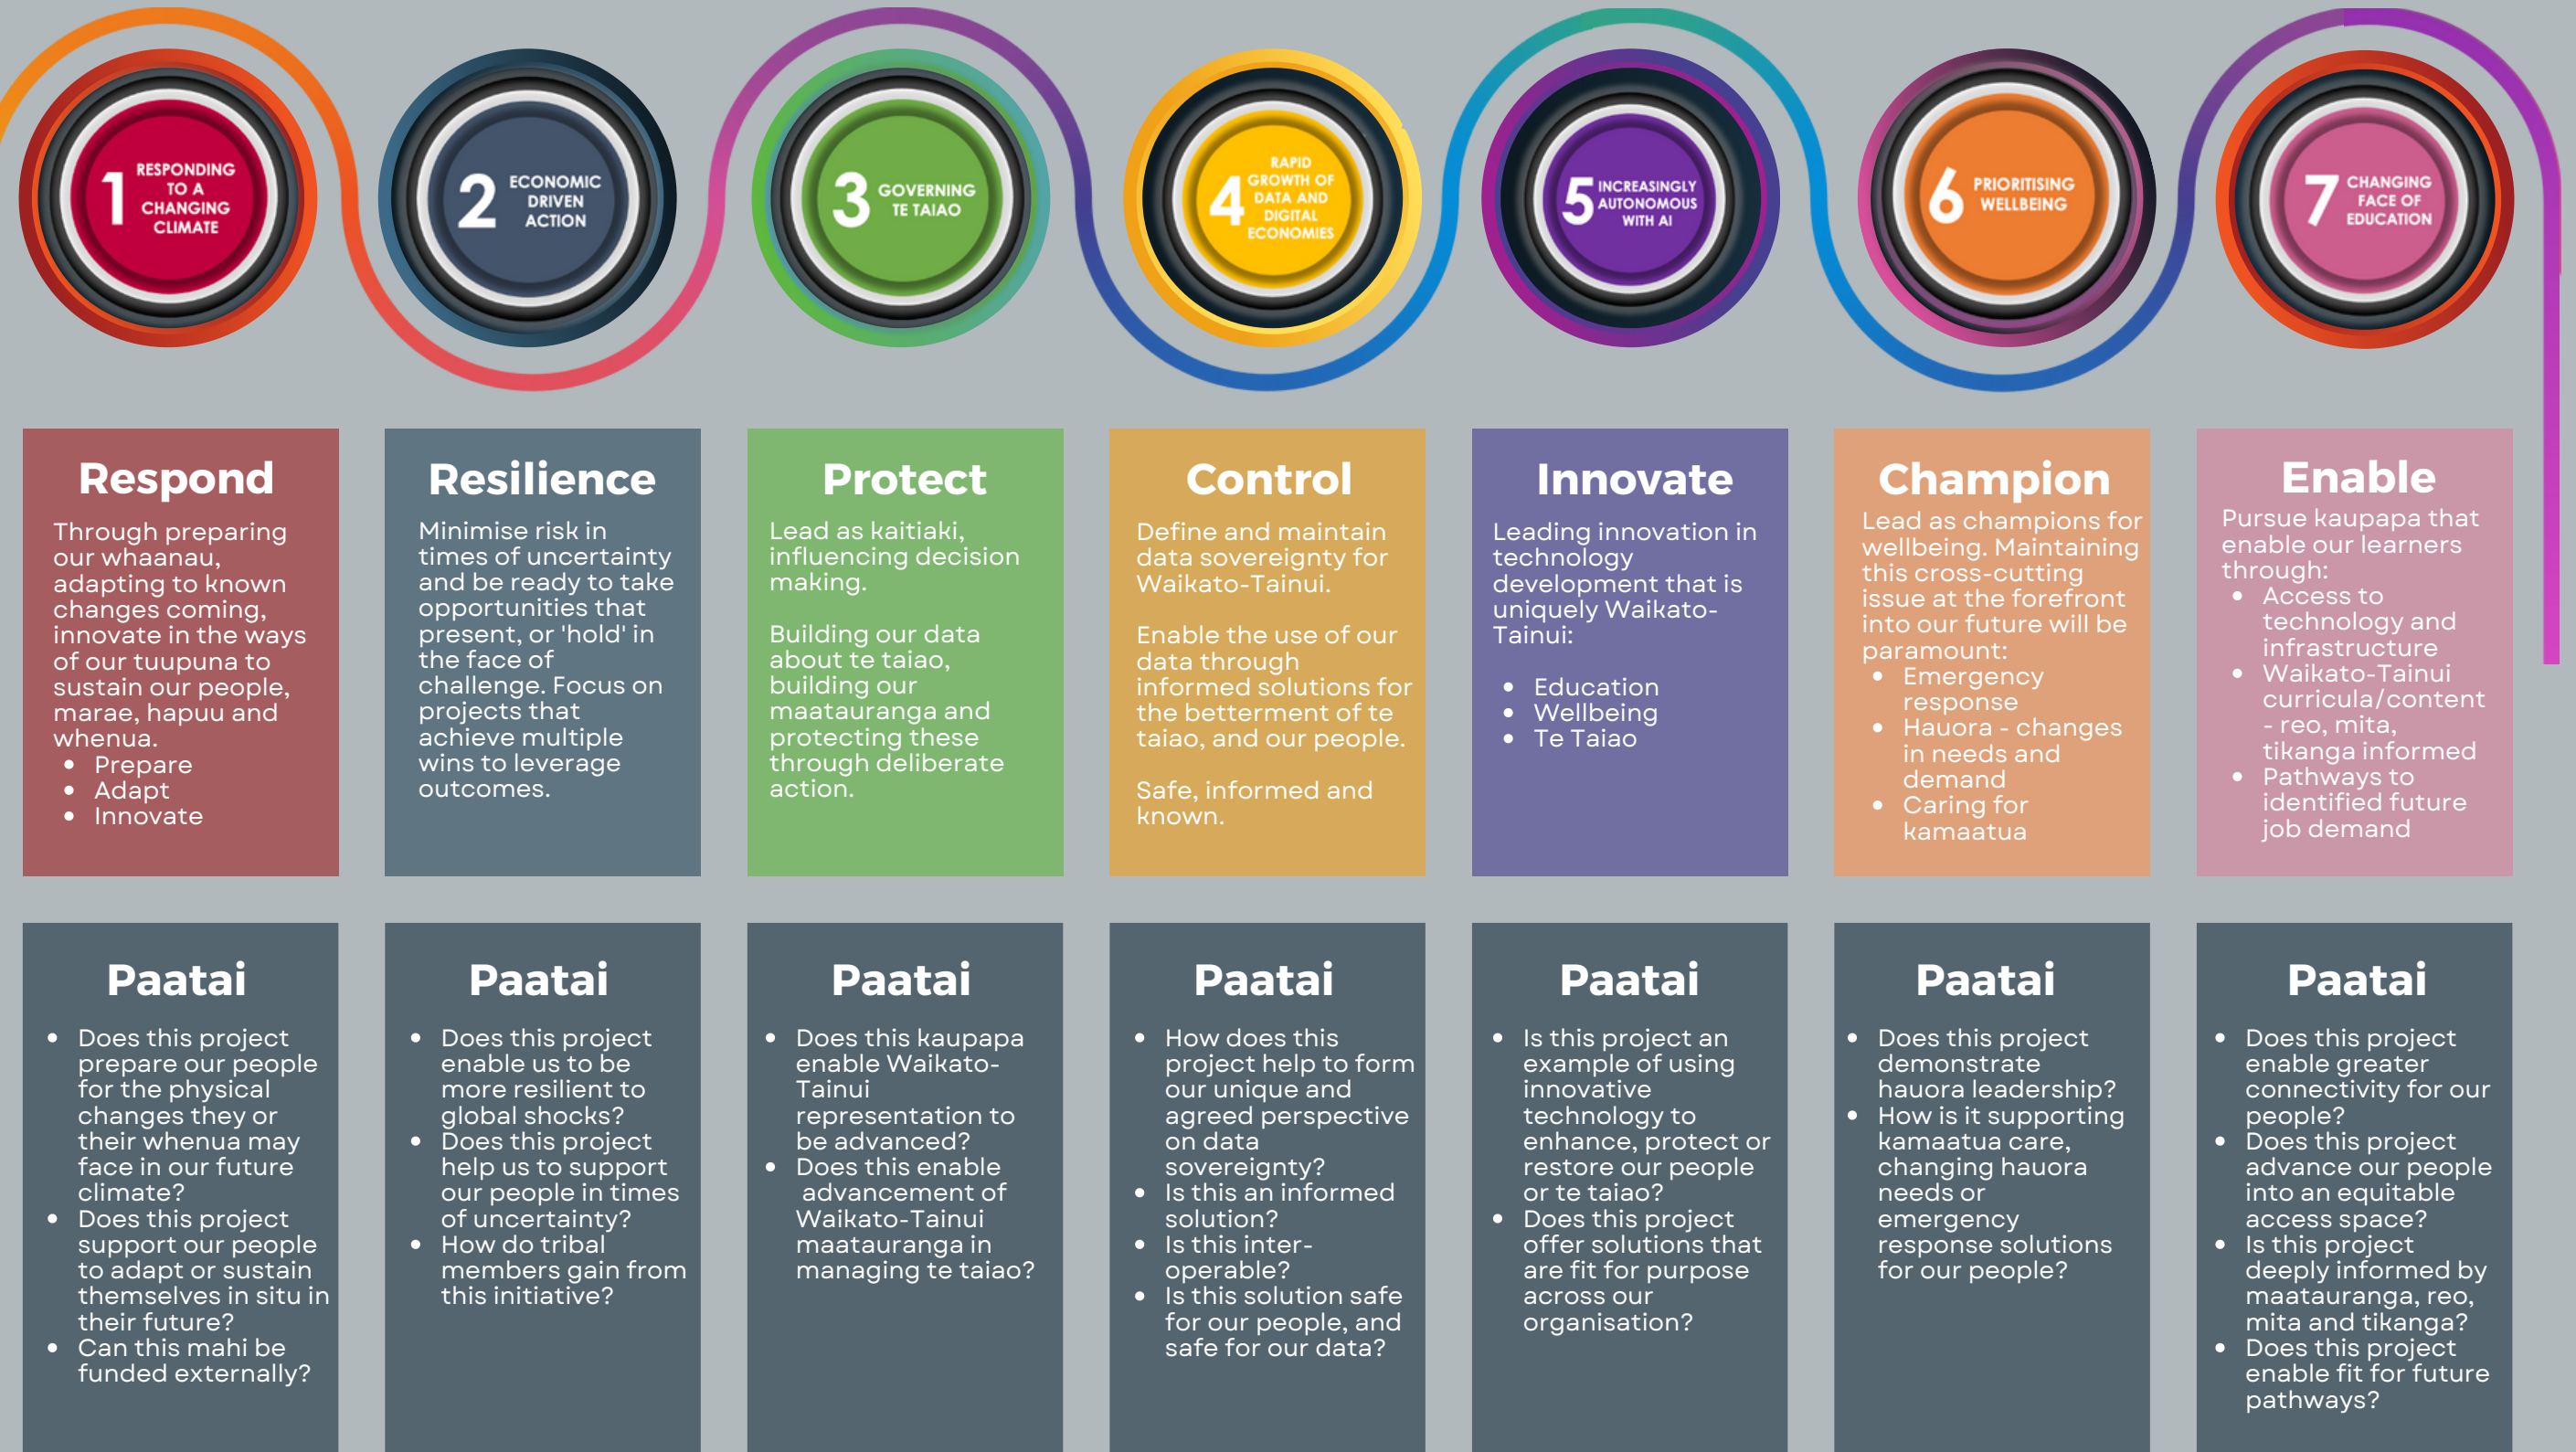

Throughout the research undertaken and through further changes throughout the year, it is clear that Aotearoa and globally, the coming 5 years will be challenging for whaanau. Evidence indicates that this will be a primary area of need and hence, an appropriate Waikato-Tainui response is to prioritise whaanau as being a key focus and driver for strategic action.
